Byletch chooses one of the three academic houses to lead: Edelgard's Black Eagles, Dimitri's Blue Lions, or Claude's Golden Deer, and passes the next year teaching them and fighting with them. During this time, a masked individual named the Emperor of the Flame and a known cult only as "those who slide in the dark" throw attacks on the church. During a raid in the Holy Mausoleum of the Crest taken by the king of nemesis liberation in ancient history. Rhea confesses the sword. Eventually, the murderer Kronya murders Jeralt; Bylet persecutes her in the forest sealed outside Garreg Mach, falls into a trap, and is banished in a kingdom of darkness. This sacrifices his individuality to grant Bylet all the extension of his power, allowing them to escape. After, the a'Andae takes them to the holy grave well below Garreg Mach to receive a divine revelation. The flame emperor interrupts the ritual to attack the tomb, and in the subsequent battle it is revealed that it is Edelgard. If Bylet is a black guy and assisted his coronation as an emperor earlier, they can defect the empire. Otherwise, allies remain with the Church. Edelgard, who sees the Church as corrupt due to the propagation of the worship of the ridges that he brought to the death of her brothers, declares war on the church and attacks Garreg Mach. The empire wins the battle, and Bylet is seriously injured and falls into a coma during the next five years. If Byleth joins the church, they wake up to find that the kingdom has been reduced to a Térere state, Dimitri is presumed dead, the alliance has fractured in Pro-Empire factions, Claude has been fighting to maintain a of neutrality, Rhea has been captured by the Empire, the Knights of Seiros have been to the four winds to find her and Byleth, and the Empire is on the verge of conquering FÃ<sup>3</sup>Âdlan. Byleth rallies an army to combat the Empire, with the exact details varying depending on the route. After a massive three-way battle between the Empire, Kingdom, and Alliance known as the Battle at Gronder, Byleth directly invades Adrestia and conquers Fort Merceus, a critical stronghold on the path to the Imperial capital of Enbarr. They then launch a direct invasion of Enbarr. the Kingdom unite FÃ<sup>3</sup>Âdlan under the former's rule, and Byleth becomes archbishop of the Church after Rhea retires. On the Silver Snow and Verdant Wind routes, Hubert posthumously warns them about those who slither in the dark, and Byleth besieges their stronghold Shambhala and kills their leader Thales. After defeating either Rhea after she suffers a draconic degeneration-induced mental breakdown due to injuries sustained in Shambhala (Silver Snow) or Nemesis after he is resurrected by those who slither in the dark as a last act of spite against FÃ<sup>3</sup>Âdlan (Verdant Wind), Byleth unites the continent as the first ruler of the United Kingdom of FÃ<sup>3</sup>Âdlan. If Byleth sides with the Empire, they awaken to find that Dimitri has granted Rhea asylum and sided with the Church, and the two of them have fought the Empire to a stalemate while Claude and the Alliance, and either kill or exile Claude. After beating back a counterattack by the Church and assassinating a high-ranking member of those who slither in the dark, Byleth launches a direct invasion of Faerghus. Dimitri and Rhea is forced to retreat to the Kingdom capital of Fhirdiad. Although their base of charm is not exactly star, Tea Time's consistent impulses on birthdays will prove to be the barn. Byleth will probably maintain this advantage, as they have fairly solid growth rates around and receive extra experience thanks to their personal capacity, the Teacher's Guide. At the beginning of the game, Byleth will be one of the strongest units of the player, having better survival than most students thanks to HP solid, speed and defenses, while also has decent attack speed, as well as solid one-stop damage through Wrath Strike when used with the stee sword that gets pretty early. Byleth does not have outstanding weaknesses in statistics or arms competencies, allowing them to assume any role the player wants. In addition, they gain a personal weapon in chapter 4, the Creator's Sword; this gives them a decent option 1-2 rank, as well as a single stroke attack very powerful, anti-dragon, Purified Heaven. In addition to a strong general combat, the skills and the fighting arts they get from their skills can also provide some interesting options. Battalion Vantage and Battalion Vantage and Battalion State and the fighting arts they get from their skills can also provide some interesting options. regular counterparts. In addition, they can also learn the windsweep scurry, which can allow them to safely harm some of the most offensively dangerous enemies without fear of reprisals. Byleth owns the Crest of Flames; this gives them a 20% chance to restore HP equal to 30% of the damage they treat, improving their survival in the front lines to some extent. In addition, of these effects and the ability to exercise the creator's sword in full power, the crest of Bylet also ensures that they will not receive a decline of any of the relics of the other Hã © roes, which They can also be decently effective in their hands due to their high natural force mentioned above. Byleth's greatest weakness as a unit is how it interacts the growth of his unity with the gambling of the game. Unlike your students, which can be trained 4 to 5 times by weekend, resistance allows it, in any topic of the player's choice, bylet begins only capable of being tutulated 3 times to do other things, such as cooking meals or participating in tournaments. The general effect is that the growth of bylet is actually more than its students throughout the part I. Fortunately, they automatically receive the class illustrated at the end of chopper 10. The enlightened serves as an excellent option of Relations for bylet at the end of part I and in general, since it has systicate statists around it and the ability to use both fights and magic, which makes Byleth generalist that it has a lower raw magic and lacks the "fair" skills of class such as Warlock, it has a significant motion advantage over the majority of the other kinds of magic. Recruiting all possible units, then, as very half, assuming that they obtain supports B with everyone, except Ferdinand and Caspar, they need d lancas, bows, Bows, and riding and d+ faith and authority on all routes, of heavy armor both a black guy, d made and a black guy aligned in the church or a blue lein, d+ swords and e+ flying like a black guy o Dorado deer, and c c and heavy armor like a black guy aligned in the church or a blue lein, d+ swords and e+ flying like a black guy aligned in the church or a blue lein or golden deer to do so. While each threshold seems feasible when taken individually, attempting to recruit absolutely all may be a significant time investment, and may result in delay in Byleth's growth through Part I due to the lack of focus on any skill. Once Part II arrives, things start looking for Byleth. With more options to develop your strengths thanks to taking advanced exercises from students, Byleth strengths as a unit can grow much faster depending on the desired construction. If you do not want to remain enlightened, Byleth's statistics and lack of banks allow you to assume almost any role in the army you want. Wyvern Lord is an excellent magic choice, although the latter is only available for female byleth.
